# 簡介

- AWS 有很多現成的 AI 相關服務。
- Mendix 低代碼做前端介面簡單快速。
- 以 Mendix 為前端結合 AWS 為後端來開發 AI 聊天功能。

Mendix 能基於 AWS 的 AI 服務建立 AI 增強型應用  
使用內建的 Mendix AWS 連接器

The diagram illustrates the Mendix AWS Connectors architecture. At the top, the Mendix logo is followed by the text 'for AI-Augmented Applications'. Below this, three main categories are shown, each with a grid of specific AWS services and a corresponding Mendix connector icon:

- Amazon Services for Applied AI:** Includes Amazon Textract, Amazon Rekognition, Amazon Translate, and Amazon Polly.
- Amazon Bedrock for Generative AI:** Includes Amazon Bedrock (Platform-supported by Mendix) and Amazon Bedrock (Showcase App).
- Amazon Sagemaker for Predictive AI/ML:** Includes 'Import ML models into Mendix apps' and the 'Mendix ML Kit'.
